ATTORNEY AT LAW
1313 LYNDON LANE
SUITE 115
LOUISVILLE, KENTUCKY 40222
(502) 429-0266

Sept. 30, 1996

Dear Harold:

Hope this letter finds you well. I just got your letter about your 9am beer. Are you sure that is okay with the doctor?

I try to stick with the sober till noon routine, but for you, that is noon! or later!

Thank you and Lil for the hospitality. It is very nice of you two to put up with all us researchers. Or just nuts in general!

Dad's prostate operation went well. He is home and in good shape. Larry is now using a cane, so he is getting around better. Things are looking up.

Thanks again for all the info. I will send a copy of the SenCooper letter to Bill Cooper, where he may want to put it into the archive. De Mohrenschildt must have interested Cooper, he kept that transcript in his files. It is my understanding that all the "depositions" were to be returned to the staff, but my theory is that Cooper kept the ones that interested him greatly.

Well, there is a new show on TV that "postulates"-it is a fiction show- that Harry Truman knew all about aliens, set up an outfit called Majestic 12, which became infiltrated with aliens, which went on to kill JFK and then'- this is the good part- controlled Jack Ruby by putting a kind of alien lobster in his body, which told him to bump off Oswald.

I am not making this up. Too bad TV is more concernedwith fiction than the truth. Truth in this case is even more fascinating.

At this point in life, I am just happy that we all are healthy and alive. I am pestering Dad to go on vacation with me to Florida, fishing. May go in November.

At lunch, we were talking about the CIA and cocaine smuggling. I told him that I had heard these rumors 10 years ago, except it involved the Miami area. In my opinion, the CIA is most likely to be in a "Look the other way" type of thing than actually doing the smuggling. Dad said, how come you think you know so much about the CIA? So I gave him a copy of that 1967 memo where LBJ wanted the FBI to look into whether the CIA bumped off JFK. That surprised him !

Was so happy to see JFK Jr. got married without the press.I have been aground on Cumberland Island.The tide there rises 8 feet. We got stuck in the mud. I have been hard aground in some of the finest waters in the USA. Jimmy Carter was instrumental in saving these islands. Hope John has a long and happy life. Doubt that he ever gets into politics, but you never know. Who knew Ron Reagan would ever become Prez.?

I'll write soon. Love to Lil. Bill
